---

I guess that could work. We just have to make it clear to FWS that the information is CBI and cannot be shared with just anyone. I bet they haven't thought of that....

That's what I was hoping for, if possible. I was hoping that you could provide the sales information to someone at FWS who is CBI cleared and then we can just mention in the report that the information was sent by you to [INSERT CBI CLEARED FWS PERSON] on [INSERT DATE SENT]. Would that work? Otherwise we need to send the report with CBI clearance.

Thanks,  
Melissa

I've already asked her to claim CBI when they officially send in the information. By "trying to keep CBI out of the report" - Does that mean the sales info will be provided separately to FWS?  
Thanks,  
John

John,

We were trying to keep the CBI out of the report. Could Scimetrix submit the CBI separately to you? If so, then the rest of the report is fine as is for our purposes.

Thanks,  
Melissa

Melissa - Here you go. I think this has all the information that you need. Let me know if it doesn't. I will tell her to submit the sales information as CBI, but right now it's not marked that way.

Thanks,  
John

John:

Please see attached information regarding Kaput-D Prairie Dog Sales for last baiting season. If there is a certain format I need to follow submitting this information, let me know. I certainly can make changes. For right now, I listed the total pounds sold to states. Do you need more specific information, eg. customer name, city and pounds purchased? If so, I can put a spreadsheet together. However, we would like this information to be classified as confidential, since it does show customer information.

Let me know your suggestions, so I can update the document accordingly before your deadline next week.

Thank you! Sue.
